

# Facilitator

Your job is to keep the discussion moving. Ask questions. Acknowledge what others have said. Make sure everyone gets a chance to speak. Keep the group on-track, and make sure things get done on time. Make sure that the group converges on a single, helpful plan. A good model for a discussion is to start narrow (core pedagogy idea), broaden out (open-ended discussion about approaches), and then converge (move into a deep dive of one approach).
